AquaPC by Acu-Trol

Aqua PC mounted with flow cell, pH & PPM sensors

Eliminate the time and hassle of handling pool chemicals with an automated chemical controller. The Aqua PC is safe, clean and effective with total accuracy. Swim safely with the confidence that Acu-Trol intelligence is monitoring and controlling your pool and spa. The Aqua PC is working for you maintaining proper and perfect pH and chlorine balance.

Using Acu-Trol's powerful commercial pool and spa technology, the Aqua PC monitors and controls your pool and spa water quality automatically.

The Aqua PC is designed for large residential pools and spas giving you maximum flexibility to control both pH and sanitizer. No matter what type of pool or spa setup you have, the Aqua PC is reliable and easy to use. The Aqua PC makes your pool and spa an inviting backyard paradise with safe, accurately balanced and beautifully clear water.

All Acu-Trol pool and spa products are supported by a highly trained network of technicians and backed by a knowledgeable customer service department.

## COMMERCIAL POWER FOR YOUR POOL AND SPA NEEDS AUTOMATE YOUR CHEMICAL MANAGEMENT WITH THE AQUA PC

pH 110/220\* VAC, DPDT, 5A, PPM

Dry/24/110/220\*VAC, DPDT, 5A,

\*Selectable

#### Power

110 or 220 VAC

### Physical Specifications

#### Dimensions (HxWxD)

6.0" x 7.75" x 3.5"

#### Weight

3 lbs

#### Material

Molded polycarbonate NEMA type 4

#### Flow Cell

Molded acrylic with PVC lid

#### Probes

Commercial Amp PVC w/26 ml gel

### User Interface

#### Display

LED displays visible at over 20'

#### Interface

Membrane overlay with built-in touch buttons

### Safety

#### pH

LED alarm indicator, Set point +.3,

Programmable overfeed lockout,

Flow switch disable

#### PPM

LED alarm indicator, Set point +.5,

Programmable overfeed lockout, Flow

switch disable

#### Flow Switch

Patented flow cell with built in flow

switch disables feeding in no flow con-

ditions

### Programmability

Proportional feed, Feeder ON and OFF times, Mixing times, Over feed lock out times, pH set point, PPM set point, pH calibration, PPM calibration, Acid / Base feed, 1 password

### Features

Designed for pools larger than 45,000 gallons, 5 days of data recording, Certifications- UL8730-1, CSA E750-1, CE En60730

### Options

Pigtails for feeders, Electrical gang boxes for feeders, Pre-mounted feed pumps on panel

Acu-Trol, Inc.  
Programmable Controllers  
11830 Kemper Rd.  
Auburn, CA 95603
